- Low in sugar
- Gluten and caffeine free
- Proprietary electrolyte formula incl. Magnesium
- Proprietary blend of B and C group vitamins and essential branch chain amino acids (BCAA's)
- Multi pack includes: Ice Tea Peach, Lemon Lime, Orange, Pineapple Blast and Wild Berry

Thorzt Sugar Free Sachets X 50 Mixed Flavours

Style: **41599W**

- THORZT has been formulated to meet the needs of a hard working body in extreme working conditions
- By replacing the correct proportions of essential minerals, carbohydrates, amino-acids and other nutrients lost through sweating
- THORZT is a pleasant tasting, caffeine-free, worker-tested drink, which re-establishes the correct electrolyte fluid balance necessary for optimum operation
- Unlike many so-called sports drinks, THORZT recognises the harm caused by too much sugar and incorrect ratios of electrolytes within most drinks
- The addition of magnesium and low sugar levels provides very important health benefits when consuming THORZT compared to other drinks
- Single serve 600mls each

Accessories

Robuck 8.7Cal Taped Arc Trousers Black

Style: **25112W**

The Robuck 8.7cal Taped Arc Trousers are the perfect solution for anyone who needs protection from electrical arcs. Designed with durability in mind, these trousers are specially reinforced to resist tear and ripping, ensuring they will last even in the toughest work environments.

The elastic waistband provides comfort and a snug fit, while the convenient, secure, and generous pockets offer ample storage space for all your essentials. The 260gsm fabric is made from 99% cotton and 1% antistatic, durable flame-retardant material, providing both comfort and protection. These trousers have an ATPV rating of 8.7CAL/cm2 and an HRC 2 rating, ensuring they meet the highest standards of safety and protection.

****Features:****

- Specially reinforced to resist tear and ripping
- Elastic at waist for comfort and fit
- Convenient, secure and generous pockets

****Fabric:****

260gsm 99% Cotton : 1% Antistatic Durable Flame Retardant

****Standards:****

ATPV Rating: 8.7CAL/cm2 HRC 2

Whether you're working in a high-risk environment or simply need a pair of tough, reliable work pants, the Robuck 8.7cal Taped Arc Trousers are the perfect choice.

Robuck Elastic Shoulder Reflective Overalls

Style: **30059W**

The Robuck Elastic Shoulder Reflective Overalls are a functional and comfortable option for workwear.

These overalls feature a range of pockets, including a pen and cell phone pocket, open plans pocket, back hip pocket, and rule pocket on the leg. There are also hanging trouser pockets and side entry openings for easy access.

The breast pocket includes a concealed dome, and the overalls have an elastic back for added comfort. The front and back rise (crutch) is twin stitched for extra durability, and the zipped closure features a heavy-duty YKK rust-proof vision zip/dome.

The protection placket over the zip/dome closure provides added protection, and stress points are bar-tacked for increased durability. The pockets are also twin stitched for added strength. Stay protected and comfortable on the job with the Robuck Elastic Shoulder Reflective Overalls.

****Features:****

- Pen and cellphone pocket
- Open plans pocket
- Back hip pocket and rule pocket on leg
- Hanging trouser pockets

Buy gloves in bulk and keep your team safe!

CARTON OF 144

Cut Resistant Arm Sleeve

Style: **40853W**

- Unique Taeki 5 super cut resistant sleeve 16"
- Thumb hole
- Heat contact protection EN407
- High cut resistance CE/EN388 cut level 5
- Taeki 5 yarn offers excellent breathability & sweat absorption
- Lint free liner
- Washable
- Ultimate, abrasion, cut + puncture resistance

Blade Cut 5 Kevlar Sleeve With Thumb Hole Pair

Style: **50209W**

This liner offers excellent protection and comfort, with a breathable and flexible design that outshines stiffer alternatives. Ideal for industries such as glazing and sheet metal, where forearm protection is a priority, this liner is the perfect solution.

****Features****

- The breathable and flexible liner provides better comfort and fit than other stiffer alternatives.
- A superior option for glazing and sheet metal applications where forearm protection is a priority.
- The sleeve can be laundered at 40° water temperature increasing the products life and cycle rate.
- Thumb hole version provides better palm and wrist protection and restricts the sleeve from sliding up the forearm.

Disposable

White Titan 380 Disposable Overalls

Style: **30050W**

- BWF Breathable Waterproof Fabric
- Approved for asbestos removal
- Penetration Resistance for premium protection - Chemical (EN368) and Blood (ASTM F1670)

CARTON OF 144

Ansel Thermaknit Uni Size Glove

Style: **50202W**

• Ideal liner glove under rubber gloves, disposable gloves and chemical resistant gloves

- Machine washable
- Manufactured from materials suitable for contact with food
- Stretch 'one size fits all' knitted liner
- Unique Dacron ThermaStat® fast-wicking fibres

Blade Cut 5 Kevlar Sleeve With Thumb Hole Pair

Style: **50209W**

This liner offers excellent protection and comfort, with a breathable and flexible design that outshines stiffer alternatives. Ideal for industries such as glazing and sheet metal, where forearm protection is a priority, this liner is the perfect solution.

****Features****

- The breathable and flexible liner provides better comfort and fit than other stiffer alternatives.
- A superior option for glazing and sheet metal applications where forearm protection is a priority.
- The sleeve can be laundered at 40° water temperature increasing the products life and cycle rate.
- Thumb hole version provides better palm and wrist protection and restricts the sleeve from sliding up the forearm.

Polka Dot Knit Glove

Style: **50026W**

- Seamless white poly cotton glove with black polka dots on the palm of the hand and fingers
- Excellent fit and comfort where the hand can breathe
- Combined with good grip, makes this glove a good all round glove for dry handling applications.

Polycotton Knitted Glove

Style: **50027W**

- This high quality polycotton knit glove is washable and suitable for general tasks
- 7-gauge knit for strength and ventilation
- Can be reversed and used on both sides
- Can be used as an under-glove for comfort, absorbency and warmth under other gloves
- Also used as an over-glove for extra grip or softness in some applications

Style: **10814W**

- Heavy-duty TPU toe guard for extra scuff protection.
- Broad fitting 200 joule impact resistant Type 1 steel toe cap
- Nitrile Rubber outsole with aggressive self-clearing tread pattern providing superior grip, stability and abrasion resistance. Rubber outsole increases cut and slip resistance and is resistant to hydrolysis and microbial attack
- 5mm deep tread, expels foreign materials and resists clogging
- Outsole heat resistant to 300C
- Revolutionary world-first CushionCore 3.0 comfort technology combines two compounds of PU injected into the midsole providing superior shock absorption at the heel while also providing rebound at the forefront as you step
- Super cushioning Comf2Bull Quad-Max footbed of a soft PU with a cushioning heel that's also antibacterial and washable
- Certified to: Standard AS/NZS 2210.3:2019 - Classification 1—ID:2815
- ASTM F2413-18 (including electrical resistance Clause 5.6)

John Bull Cougar Slip On Safety Boot

Style: **10810W**

- Moulded Bull Bar scuff cap
- Polyurethane midsole, thermo urethane (TPU) outsole
- Oil, acid & organic fat resistant
- Highly resistant to abrasion, hydrolysis and microbial attack
- Outsole heat resistant to 140°C
- Steel shank—ensures correct step flex point
- Defined heel for site safety on ladders and gantries
- Ergonomically engineered toe spring for reduced wearer fatigue
- PORON® pad is in the heel strike zone for increased shock protection
- Combined with the new Comf2Bull footbed which is a soft PU (polyurethane) with gel inserts at the high impact strike points
- Certified to Standard AS/NZS 2210.3:2009 - Classification 1 – ID2815
- ASTM F2413-11 including electrical shock resistance (Clause 5.5)

3M 6035 High Efficiency Cartridge Filter P3

Style: **40518W**

- 3M™ Cartridge Filter 6035 P2/P3
- Particulate is one of the 3M 6000 series of filters that are applicable for use in a variety of environments
- Its unique design provides wearers with a range of benefits
- Unique easy to check seal promotes enhanced respirator fit
- High temperature cover protects filter media from heat, sparks or physical damage
- Bayonet fitting ensures precise & safer locking
- Versatility: can be used on all 3M 6000, 3M 7000 & 3M 7500 Series Half Masks and Full Face Masks
- Meets specifications of AS/ NZS 1716:2003

3M 6057 A1 B E2 Comb Cartridge Filter

Style: **40274W**

- This cartridge, when used with 6000 and 7000 series face pieces, provides respiratory protection from certain organic vapors with boiling points >65°C, inorganic gases such as Chlorine, and acid gases such as Sulfur Dioxide at concentrations up to 10 times the exposure standard with half face pieces or 50 times exposure standard with full face pieces
- Low breathing resistance
- Excellent field of vision as a result of unique trapezoidal shape
- Bayonet fitting ensures precise & safer locking
- Versatility: can be used on all 3M 6000, 3M 7000 & 3M 7500 Series Half Masks and Full Face Masks

3M 6835 Asbestos/Dust P3 Mask

Style: **40793W**

- Convenient respiratory kit designed for asbestos removal & environments containing dust
- The kit comes complete with the 3M™ Full Face 6000 Series Respirator & two pairs of 3M™ Particulate Filters 6035 P2/P3
- The unique solid top particulate filter casing design reduces premature caking & clogging from dirt, grime, water or dust
- The protective casing also aids decontamination practices.

3M 7535 Asbestos/Dust P2 Mask

Style: **40792W**

- Convenient respiratory kit designed for asbestos removal & environments containing dust
- The kit comes complete with the 3M™ Half Face Reusable 7500 Series Respirator & two pairs of 3M™ Particulate Filters 6035 P2/P3
- The unique solid top particulate filter casing design reduces premature caking & clogging from dirt, grime, water or dust
- The protective casing also aids decontamination practices.

3M Dust Filter

Style: **40277W**

- Contains advanced Electret Media for maximal filtration efficiency & light weight
- Low breathing resistance
- Approved as a P2 filter
- Lighter than conventional filters that provide comparable protection
- Durable, water-resistant and flame retardant
- Bayonet fitting ensures precise & safer locking
- Versatility: can be used on all 3M 6000, 3M 7000 & 3M 7500 Series Half Masks and Full Face Masks
- Pack with 2 filters

3M Filter Retainer Ring 501 to hold Respirator Filter Each

Style: **40276W**

- Used to hold 3M™ Particulate Filters 5N11 and 5P71/07194(AAD) in place on top of 3M™ Respirators 5000 Series and 3M™ Cartridges 6000 Series

3M Half Face Mask 6000

Style: **40271W**

- The 3M™ Half Facepiece Reusable Respirator offers versatility for many environments and applications providing protection against particulates and a wide variety of gases and vapors when used with approved cartridges and filters
- Offers reliable, convenient respiratory protection when combined with 3M™ Particulate Filters or Cartridges (such as organic vapor/acid gas cartridges) or dual airline system
- For use with 3M™ Cartridges 6000 Series; 3M™ Filters 2000, 2200, 7000 or 5000 Series; or 3M™ Dual Airline Systems against a variety of gases, vapors and particulate hazards according to NIOSH approvals
- Comes with reclosable storage bag

3M Silicone Half Face Mask 7500

Style: **40301W**

- Silicone material to help provide comfortable and durable respiratory protection
- The 3M™ Cool Flow™ Valve helps make breathing easier
- Reduces heat and moisture build-up for cool, dry comfort

3M Welding Filter

Style: **40248W**

- Protects against: Particulate, Ozone & Agricultural type Organic vapours with low vapour pressure
- Nuisance level Acid Gas (GP2)
- Approved to AS/NZS1716
- Contains advanced Electret Media for maximal filtration efficiency & light weight
- Low breathing resistance
- Approved as a GP2 filter
- Lighter than conventional filters that provide comparable protection
- Durable, water-resistant and flame retardant
- Bayonet fitting ensures precise & safer locking
- Versatility: can be used on all 3M 6000, 3M 7000 & 3M 7500 Series Half Masks and Full Face Masks

3M™ Particulate Filter 2138, P2/P3

Style: **40247W**

- 3M™ Particulate Filter 2138, P2/P3, with Nuisance Level Organic Vapor Relief
- Made from 3M high performance filter media for effective filtration efficiency
- Lightweight and provides low breathing resistance
- Provides protection against: Particulates (P2/P3*), Ozone and Nuisance Level** Acid Gas & Organic Vapours with Low Vapour Pressure
- Suitable for use with 3M™ 6000/7500 Series Half Face Respirators and 3M™ 6000/7000 Series Full Face Respirators

Trousers

Clearance - Robuck Coolvent Eyelet Cotton Trousers - Limited sizes

Style: **21789W**

The Robuck Coolvent Eyelet Cotton Trousers are designed to keep you cool and comfortable while you work. The trousers are made from a combination of lightweight cotton and polyester eyelet mesh, which provides breathability and high airflow to prevent heat fatigue.

The upper material is made from 100% lightweight 190gsm cotton, which is soft and comfortable against the skin. The 100% polyester eyelet mesh from the knee down, along with four ventilation eyelets in the crotch, allows for maximum air movement, making these trousers ideal for use in hot conditions.

The stretch waistband provides additional comfort, while the consistent NZ sizing ensures a good fit.

Whether you're a trade, mechanic, or simply someone who needs a comfortable and breathable pair of trousers, the Robuck Coolvent Eyelet Cotton Trousers are an excellent choice.

****Features****

- Light weight cotton and polyester open mesh trousers
- Latest advanced cooling design and comfort features to prevent heat fatigue
- Upper material 100% lightweight 190gsm cotton material for comfort and breathability
- 100% Polyester Eyelet mesh from knee down which provides high air flow and four ventilation eyelets in crotch to assist in air movement
- Stretch waist band for comfort
- Consistent NZ sizing
- Domes in leg cuff to reduce width if required

****Standards****

- Eyelet material certified to AS/NZS 1906.4:2010 Class F
- Retro Reflective tape certified to AS/NZS 1906.4:2010 Class R

Robuck Ruggedflex Trousers Black/Orange

Style: **21680W**

The Robuck Black and Orange Ruggedflex Trousers are the ultimate solutions for working in tough conditions. These lightweight stretch trousers are designed with a new crotch panel for unbreakable strength and unparalleled movement, as well as reinforced kneepads and cuffs for added durability. The double reflective segment tape strips provide night visibility, while the hi-vis orange colour ensures you stay visible during the day.

With functional and accessible pockets, including a ruler pocket, secure zipped phone pocket, and cargo pockets, you'll have everything you need right at your fingertips. The trousers are triple stitched on the crotch and side seams for hard-wearing durability and feature elastic at the side of the waistband for a comfortable fit.

****Features:****

- Lightweight stretch trousers
- Double reflective segment tape strips for night visibility
- Hi-vis orange for visibility during the day
- New crotch panel design for unbreakable strength and unparalleled movement
- Reinforced Kneepads and cuffs for durability
- Functional and accessible pockets including ruler pocket, secure zipped phone pocket and cargo pockets
- Triple stitching on crotch and side seams for hard wearing
- Elastic at the side of the waistband

****Material:****

• 98% Ripstop cotton and 2% Lycra material 220gsm for all season versatility
Ideal for workers in the Civil Construction, Construction, Transport, Warehousing, and Trades industries.
